GENETIC ORGANICS PVT. LTD.

Dedicated To Farmers

About Us

We are a manufacturer of a large array of high-quality organics & chemical pesticides, fungicides, herbicides & plant growth regulators that aid the cultivator in attaining the optimum farm yields he so desires.

Our R&D department continuously develops and generates data with different government-approved laboratories domestically and internationally for our various specialized formulations.

We are committed to maintaining industrial standards & worker standards and best practices for pollution-free production activity and make sure that our products are environmentally safe and secure.

Our Mission

To serve farmers with best of the best level, by enhancing farm yields through our understanding and respect for the organic products

Our Vision

To provide the agrochemical industry, by making available the best inputs to the farmer through constant innovation to provide the highest levels of customer satisfaction & smile.

Our Social Responsibility

From our profit, annually, we are contributing 1% as an Army Welfare Fund. To reduce air pollution, we are providing approx. 5000 plants every year for plantation. Also, from time to time, we arrange self-defense training programs for girls.
